

Roof Vent

**Ultraframe**<sup>®</sup>  
Transforming light and space

# New improved roof vent

The Ultraframe roof vent offers a striking contemporary look and its design is thermally broken offering a host of performance benefits.

- Modern, Slimline look
- Aluminium Sash as standard
- Long lasting durable
- PVC welded frame to eliminate leaks
- Better gaskets
- Thermally broken
- Any colour or foil
- Available with manual or electric openers
- Optional Aluminium internal claddings

# Roof vent options

A wide range of options are available to personalise the roof vent, ensuring that it perfectly complements any conservatory.

## Colours

The Ultraframe vent is available in the colourways below as standard stock items and also available in any RAL or special colour as a bespoke item.

Please specify the colours of the frames, sash and hinge when ordering the roof vent.

	2 sides bespoke	PRV002-35BF2	338.32	ARV002-35BF2	439.66

Minimum size of vent 500mm x 500mm.

Maximum size of vent 1100mm x 1100mm.

## How to Measure

To calculate the glass size within the vent there is a 76mm reduction on the total width and 78mm reduction on the total drop.

So in example to the right the glass would measure 924mm x 672.

# Ancillary pricing

Ultraframe roof vents can be opened manually or electrically.

There are a number of product options for the 2 opening solutions which are detailed below.
