

The tile starter strip provides an authentic slate look and ventilation

The expandable Ultrapanel expands to fill any gaps in the roof to prevent cold spots

The Ultraroof beam is strong enough to accommodate large sets of bi-fold or sliding doors up to 4m without costly additional support

Structural insulation within the timber and steel Ultrapanels helps the roof deliver a U-Value of 0.15 (as low as 0.12 if required)

Ultraroof creates a beautiful vaulted ceiling and no tie bar is required

Full length glazing

Fully insulated ridge

Slimline aluminium hip and ridge cappings

Fully insulated box beam eliminates the risk of condensation

Internal pelmet for downlights and speakers

Optional external soffit

Transforming light and space
