Tick this box if you would like to order hup! walls with your roof

hup! Wall Specification:

1. Footprint

Please draw the footprint of your building marking each elevation A, B, C, D etc. You should **use the base datum** which lines up with the external of the Ultrapanel clips - wall finishes and battens will overhang the base. See specification guide for more details.

Extended Base Tray required?

Width of Cavity wall 300mm. See page 34 of Specification Guide for more details

Please note hup! walls will protrude at least 48mm (3mm for membrane and clips, 25mm for battens and 20mm for claddings) outside of your base so that the wall finishes (claddings) will be ventilated. All critical dimensions will be confirmed before order stage.
