

Specification

- Low profile, sleek contemporary appearance.
- Hidden fixings.
- Lightweight base.
- Rapid fit system.
- Welded PVC base.
- Thermally broken base.
- Drained aluminium glass surround with glass overhang prevents risk of water ingress.
- Only requires one hex head drive to install (sealant required between PVC base and kerb).
- Matt powder coated external finish (White 9003, Black 9005 & Grey 7016) 30%.
- Building regulations compliant.
- Internally weather tested to BS6375.
- Clear and Blue 28mm unit overall thickness, Argon filled.

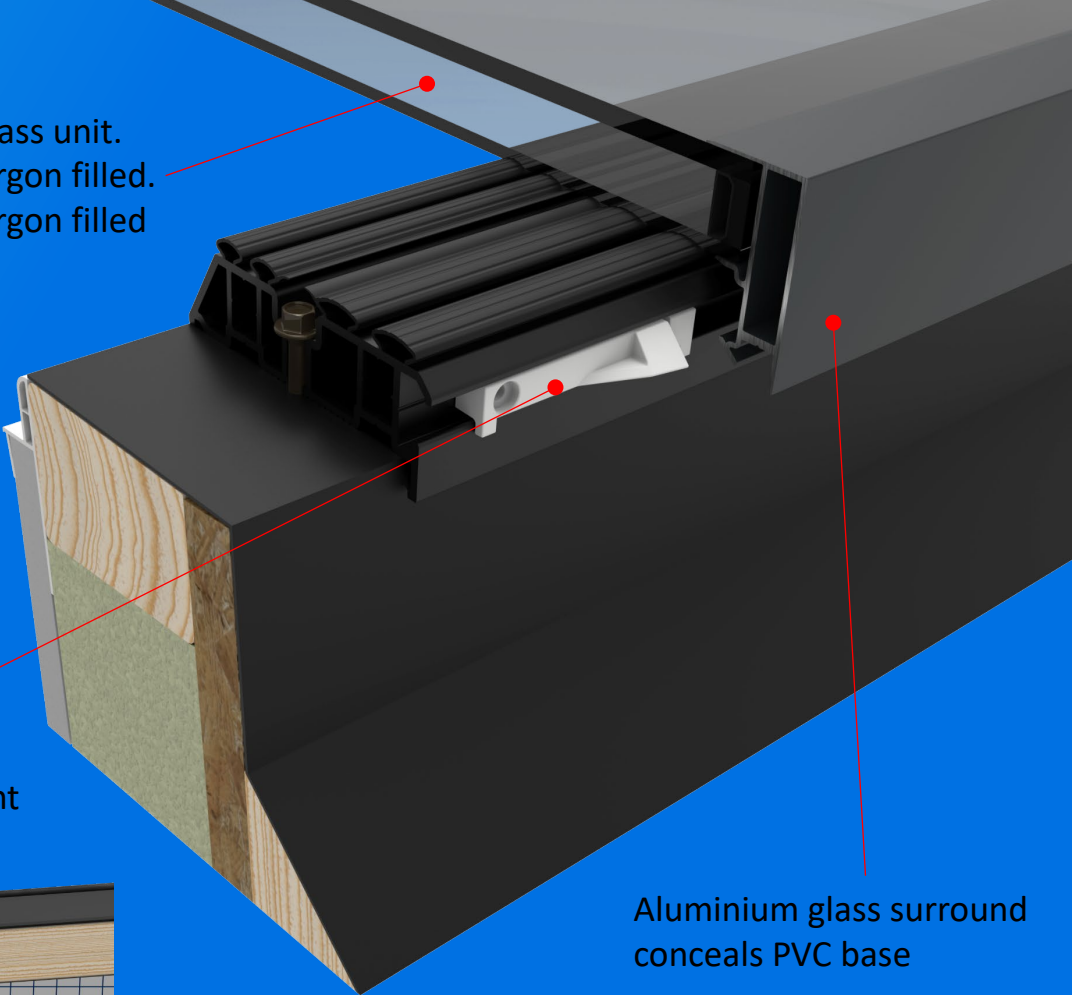

Specification

Multiple 'bubble' gaskets for improved sealing. Gaskets flatten to give uniform appearance through the glass and conceal screw once compressed.

28mm glass unit.
6-18-4 Argon filled.
6-16-6 Argon filled

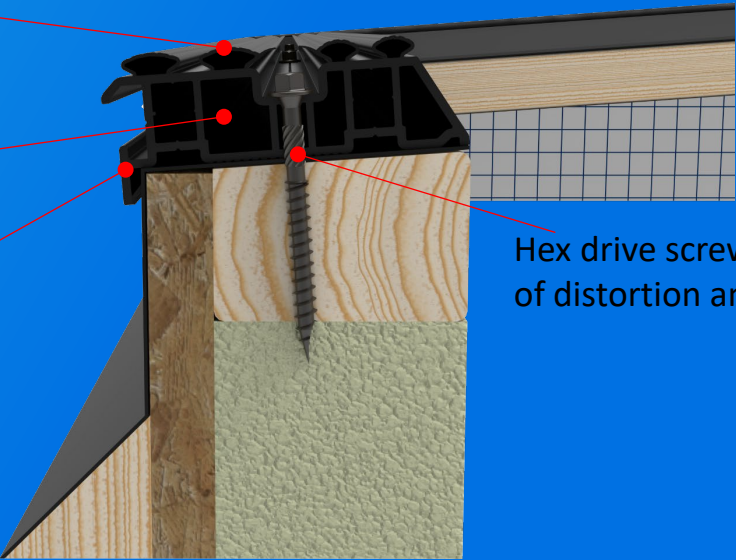

Injection moulded clip, easy engagement

Aluminium glass surround conceals PVC base

Multi chambered PVC base profile

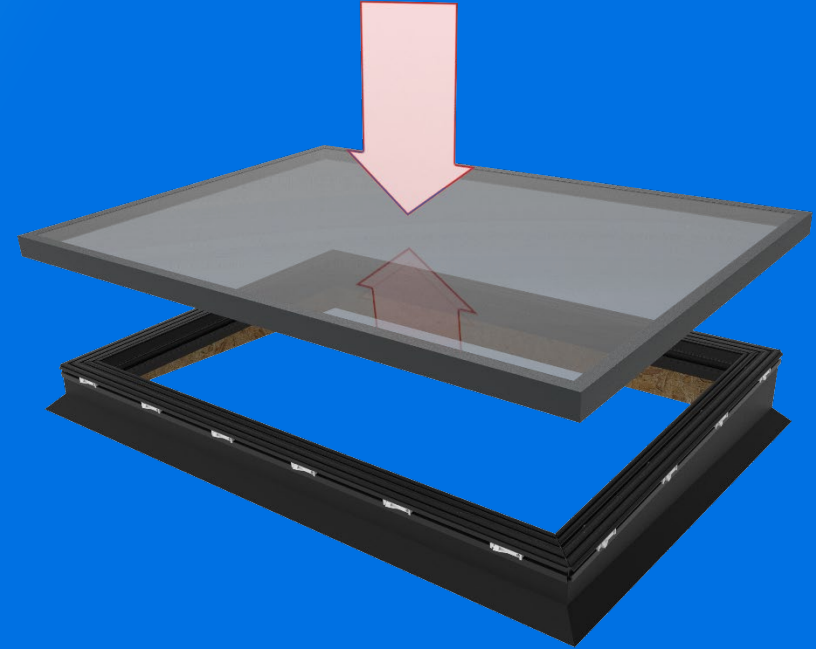

Drip profile with gasket to protect joint with kerb

Hex drive screw in centre of profile to prevent risk of distortion and ensures even compression on kerb

Fitter Friendly - Competitively Priced

- Rapid 2-Piece Installation
 - Simply fix the frame
 - Then click in the glass — it's that easy
- 7-10 Day Lead Times
- Competitively priced
- Future-Proofed Design
 - Engineered for effortless glass replacement without disturbing the frame or finishes.

Exceptional Quality

- Building Regs Complaint
- Tested for the Elements
 - Weather performance independently tested to BSI 6375 standards for peace of mind
- Exceptional Sealing System
 - Equipped with 5 high-quality seals for superior weather protection.
 - Because why settle for 1 seal when you can have 5.
 - We've addressed common issues found in other flat skylights with a robust sealing solution.
- Enhanced Weather Protection
 - Integrated drip profile directs water away and protects the kerb, extending product life and maintaining performance.

Striking Good Looks

- Available in Black (RAL 9005), Grey (RAL 7016), White (RAL 9003)
- Satin Finish powder coated aluminium
- Hidden fixings
- Slimmer profile
- Manufactured in larger sizes up to 1500mm x 2792mm

Competitor	Max Size
KORNICHE	1000mm x 3000mm
ATLAS	1000mm x 3000mm
LUMA	650mm x 3000mm
ROOF MAKER	1000mm x 3000mm
