

hup! brick slips

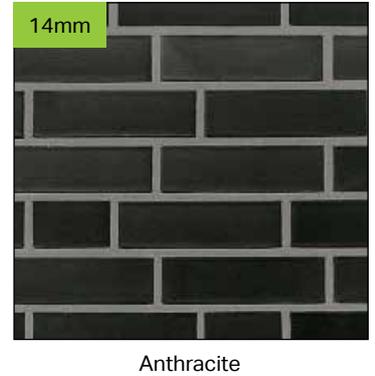

Brick slips are now available to order directly with your hup! system. Alongside ordering your hup! walls and brick slip rails system, you can now include brick slips as part of the same, streamlined order, making the process simpler and more efficient.

The mortar provided is a lime-based mortar which we recommend for use with the rails. The shades of mortar available with our brick slips, are White, Natural Grey shades and Sandstone. The rail system is not suitable for use with sand and cement mortar.

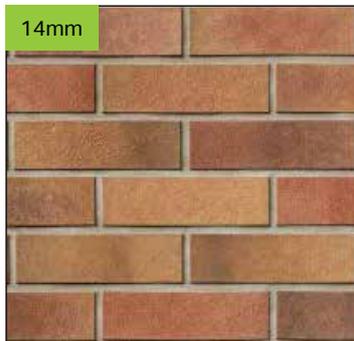

The standard brick slip rail system from hup! is designed to accommodate 20mm brick slips. If you choose 14/15mm brick slips you will be supplied with a different rail system, designed for the slimmer bricks.

Ultraframe do not provide a colour matching service and should you wish to source your own brick slips and these are slimmer than 20mm, you should inform your installer/Ultraframe, to ensure the correct rail system is specified.

To order any samples, please email sales@hupbrickslips.co.uk.
